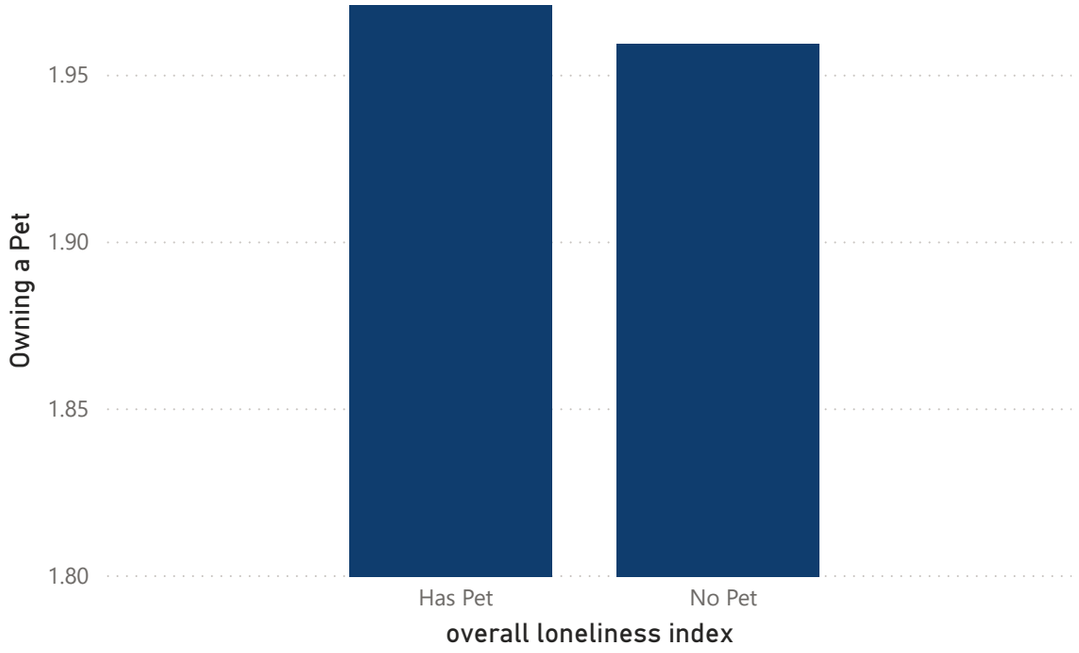
Pet VS No Pet



generation

- ☐ Boomer+
- ☐ Gen X
- ☐ Gen Z
- ☐ Millennial

gender_label

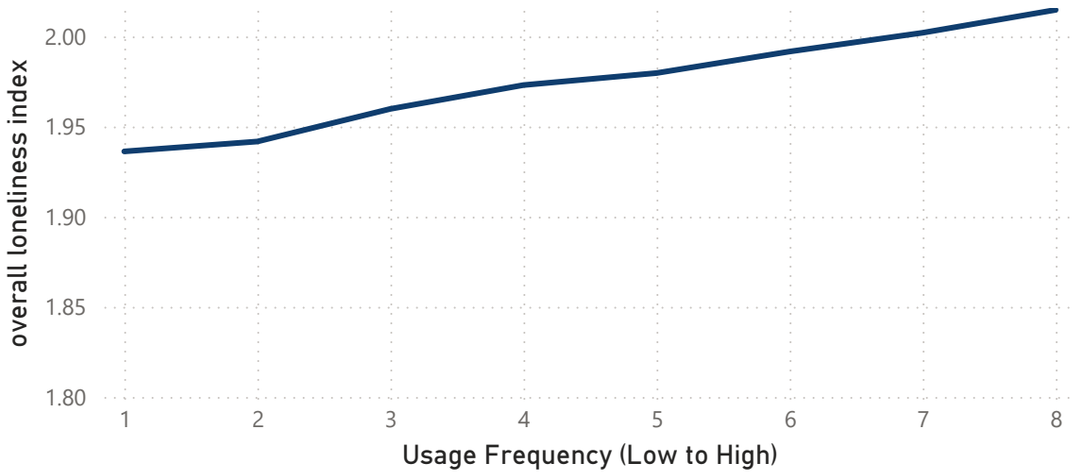
- ☐ Female
- ☐ Male
- ☐ Other

People with health conditions score 1.98 vs 1.95 without. Life events also increase loneliness slightly.

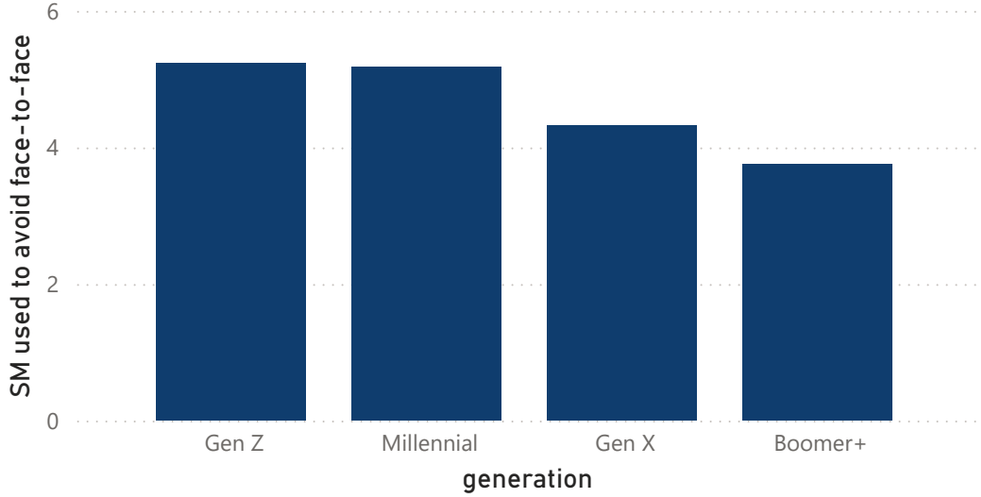
People who experienced a major life event score 0.04 points higher on the loneliness index than those who didn't

Loneliness Survey Analysis - EUROPE

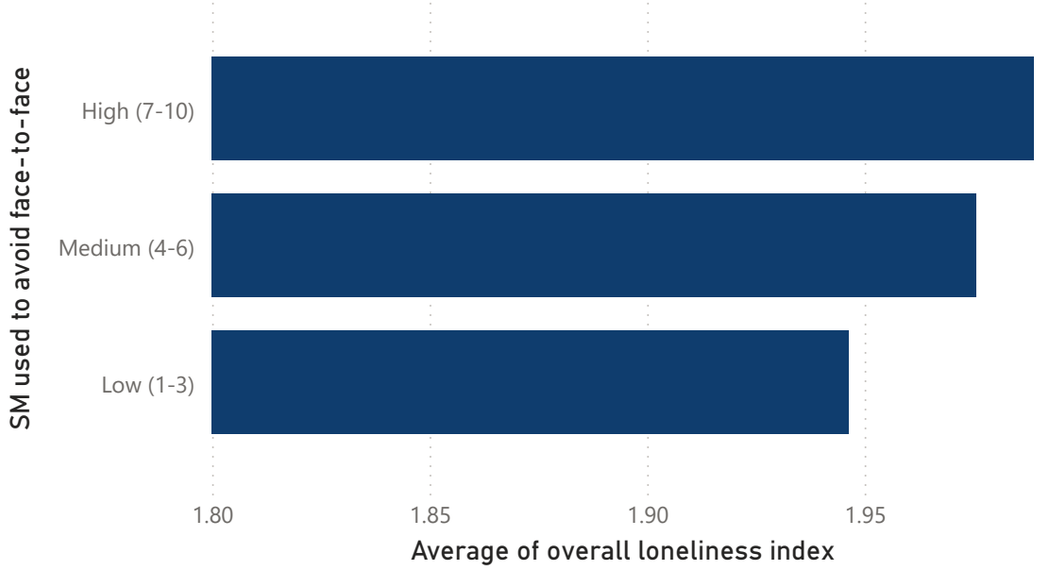
Social Media Usage VS Loneliness



Social Media Usage by Generation



Average of overall loneliness index by sm_purpose2_d_range



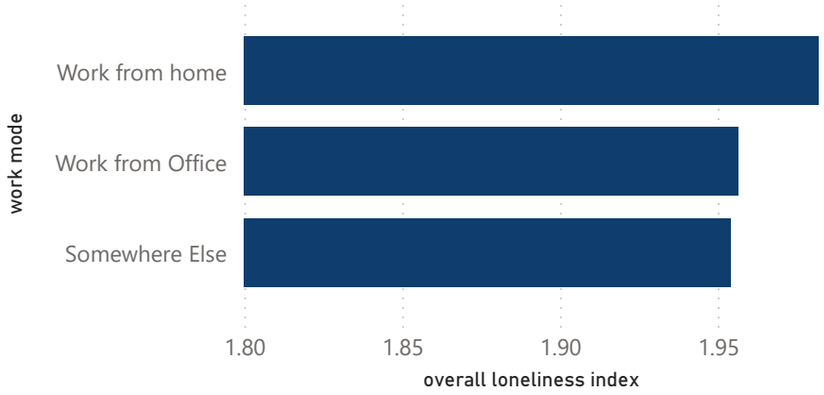
gender_label

- ☐ Female
- ☐ Male
- ☐ Other

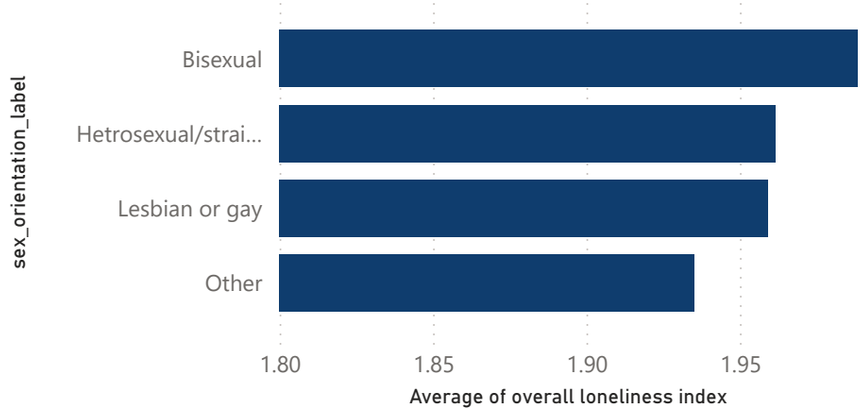
Higher SM time correlates with higher loneliness. Gen Z uses SM more purposefully to replace face-to-face contact.

Loneliness Survey Analysis - EUROPE

Loneliness By Work Mode



Loneliness By Sexual Orientation



Remote workers report the highest loneliness scores, suggesting that despite flexibility, working from home reduces incidental social contact that office environments naturally provide
